The main target audience for the restaurant are the *busy* working folks

Cost

Moderate: (\$\$)

Elevator pitch

You are a royalty in our kitchen, and we'll feed you a feast meant for the kings! 3 Course Feast delivers beautifully packaged, fresh, super-sized, quality three course meals to the folks in the northern Atlanta area.

Strategy

Target Audience

The website/app will focus on the following target audiences:

Roles (groups of people with similar goals)
Individuals that are either busy, short on time, don't have transportation, and/or don't want to cook

- Office Worker
- College Student
- Senior Citizen

Demographics (gender, age, education, occupation, marital status, income and location)

- Gender Male and Female equally
- Age 25 -65 years old
- Education College or higher
- Income Working Class
- Location Northern Atlanta Area
- Occupations & Marital Status not a factor

Psychographics (personality, values, attitudes, interests, lifestyles)

Think of at least 5 details among the categories below.

Personality & Attitudes:

- Hard worker
- o Studious
- Active

Values:

- Quality
- Lifestyles:
 - o Foodie
 - o Commuter/Transient
 - o Busy

Strategy - User Personas

John Williams (38) - Office Worker

• "Work Comes First" mentality. John works at a financial consulting firm. He is short on time and preparing for a meeting with a client. He can't leave the office for lunch.

Jen Rakel (25) – Student

• "Got to ace that exam!" Jen is a studious college student who is at her dormitory preparing for an exam coming up later in the day. She does not have a car.

Joe Smith (65) - Senior

 Joe is a retired mechanical engineer. He prefers to order out today because he is little bit tired from working in the yard earlier in the morning and haven't had a chance to go shopping this week.

Strategy

User Needs

The website needs to enable the user to:

- Find out if the restaurant delivers to their area
- Order food online
- View the menu
- View the prices
- Select from various options
- Find out delivery time
- Contact the restaurant for questions
- Create an optional account for easy checkout in the future

Client Needs

The website needs to enable the client to:

- To sell food online that will be delivered
- Provide a system for order customization
- Communicate quality (fresh meals)
- Communicate quantity (super-sized meals)
- Communicate easy access and ordering
- Communicate the progress and delivery of order
- Appear as professional establishment
